## Customer Reviews

Really love the cover design on this address book, but was disappointed that the pages were not alphabetically labeled. I just went thru and, labeled the upper corners as I needed, to fix this oversight.

I have no idea why this didn't occur to me before, but this is more like a composition book that the

usual bound kind of phone book. For some odd reason that is my fault, I really thought it would be spiral bound. It is very nice though! Just kind of hard to write in cause it's huge, but I love it!

They would make you believe that the only important thing in the Address Book is the Cover. I disagree. I think the design inside is much more important, and I am shocked that Sellers do not have photos of the inside. This book is very hard to use, it does not open all the way. Sorry to say this, but I do not recommend it.

Colorful and fun. love the extra space. The only reason I didn't go 5 stars is because of the paperback. May not hold up well
