Customer Reviews

Loved this book! It has great insight on the mind of an introvert and how to overcome obstacles in

network marketing that come with being an introvert...and also the positive traits of being an introvert. I recommend this book to anyone that is in network marketing that struggles with asserting themselves in their business.

This book was well written and on point. Argena's book spoke to the introvert with confidence and reassurance encouraging you every step of the way. This book offers practical tips to learn MLM to suit the introvert personality type in a positive way. A must read for anyone starting in Network marketing.

I was a little disappointed with the book. It seemed to be rather vague in its content. A little too general for what I was expecting. Maybe I was looking for more than what was intended in this book.

I liked this book. The biggest take away for me was that you don't need to change "you", you need to change your habits. You can use your introvert traits to your advantage.

I could only make it 60% way through this book when I realized I was still waiting for great information. If you are brand new to network marketing and don't really know you're an introvert, then it's probably good. I know very well what an introvert is and that I am one. I've been in network marketing for over a year so this book was useless. Sorry.

good for every state of your digital life

Argena Oliver is so great in sharing what really works in network marketing. I enjoy reading her books and using the suggestions in my business.
