## Customer Reviews

I thought I was purchasing an updated version of the original Weissenborn book of studies. Not so. While an ok book of studies, it does NOT contain the long-used material in the original. On the plus side, there is good content in the opening section relating to assembly and care of the instrument.

With growing prices of sheet music, this is a great deal. I actually bought this and the 50 etudes for less than buying the older version with both included.
