# Direct Wood Sculpture: Techniques, Innovation, Creativity

## Synopsis

This is a book that explores into two worlds, the appreciation of wood as medium for sculpture and a practical look of technique. The history of sculpting directly into wood is explored, illustrated with many classic examples of the art, from ancient Egypt to the twentieth century. But this book is also a vital resource for those seeking to create sculpture in wood. A complete description of the qualities and types of wood, tools (both hand and power), techniques, and finishing, complements discussions of the art form and philosophy. Also included is wisdom about making a living as a sculptor, that the author has accumulated over the decades. *Direct Wood Sculpture* is heavily illustrated with over 200 photographs, most in color, plus drawings of the tools need for sculpting in wood. This will be an invaluable addition to the sculptor or carver's library.

## Book Information

Hardcover: 168 pages

Publisher: Schiffer Publishing (July 1, 2007)

Language: English

ISBN-10: 0764312995

ISBN-13: 978-0764312991

Product Dimensions: 8.5 x 0.8 x 11 inches

Shipping Weight: 2.5 pounds (View shipping rates and policies)

## Customer Reviews

It is rare that you will find a book on this topic where the author truly shares their secrets, experiences, and provides step-by-step instruction. Milt Liebson is truly a fine artist who is a teacher at heart, and who is willing to extend his learning by sharing with those people who are serious about learning this fine craft. After reading two of Milt's books, (direct wood sculpture, direct stone sculpture), I was anxious to pass along my thanks to him. Unfortunately, Milt seems to have passed away. But his legacy lives on in his books . . . truly a beautiful parting gift to future generations of wood workers. Tim

Milt Liebson gives you not only his great art but an incredible fountain of information, tips and techniques for the (wood)sculpture artist or the one to become. Great reading and at an excellent price. My best book on the subject.

This book did meet any of my expectations at all, and not certain will ever open it again, as nothing really new in the content!! I do not like books that are all about pictures of tools on the market, and not about the doping or thought process mainly!!

Should be in any new, weathered or drift wood artist's or sculptor's working library.
