An Encyclopedia Of Women Artists Of The American West (American Studies)

Synopsis

This encyclopedia is a biographical dictionary of some 1,000 women artists of the American West. The product of a twenty-year, coast-to-coast research project by authors Phil Kovinick and Marian Yoshiki-Kovinick, it offers accurate, concise introductions to women painters, graphic artists, and sculptors, all of whom achieved recognition as depicors of Western subjects between the 1840s and 1980. Their styles range from representationalism to early modernism, while their works depict everything from bold landscapes and scenes of intensive action to studies of Native Americans, pioneers, ranchers, farmers, wildlife, and flora.

Customer Reviews

This is a perfect book for me because one of the paintings in the book is by my Great Great Grandmother, Ellen B. Farr. I was very excited to have a copy of my own.

The book is pretty diverse in its listings, e.g., geographically, so American art collectors may find something unique to them.

Authors studied these daring western artists with their hearts. A true tribute.

Excellent resource for the study of women artists. I have used the book as a springboard for my

blog and discovered the names of a multitude of female artists of whom I am unfamiliar.
