The Ultimate Compendium Of Internet Marketing Tools & Resources

Synopsis

This compendium has been compiled by myself and my team as a result of years of vetting thousands of tools and resources in the pursuit of the arsenal of tools of that will help us build and grow successful online businesses. While some were incredibly useful and saved us time and frustration, and made us more money, others were downright useless and even cost us business. We have gone out and found all of the tools you will ever need to help you build a successful online business, so that you don't have to spend weeks and months figuring it all out yourself. One of the best ways to find out what another successful entrepreneur is doing is by studying what they use and applying it in your own business. Inside this book you will discover: Ad Tools Monitoring analytics SEO Tools Social media tools Content marketing tools Analytics and optimization tools And much, much more! Best of all? These tools are free to start using. All of these tools will help you streamline, systematize, and automate processes so that you attract more clients, make more sales, and make more money with less time, effort, and capital required.

Customer Reviews

Author Tuan Luu, an Entrepreneur, Internet Marketer, Author, and Speaker, has experience running a Web Design and Online Marketing Agency and runs and operates several online businesses in various different niches. Online Retail Store, Resume Writer, Freelancer, Affiliate Marketer, Online Consignment Store, Start a Blog, Virtual Assistant, Make a YouTube Channel, Manage Social Media, Freelance Writing, Review eBooks, and Coaching. For each of these twelve business concepts Tuan offers pertinent, well researched and solid information about how to make each of

these potential income sources real - and yours! And with the success of his first book "ONLINE BUSINESS" he now takes the next obvious step and teaches us the latest techniques and marketing skills for the Internet. As the world of advertising (and retail) is daily increasingly usurped by the Internet and social media are now the interpersonal and business communications of choice, we need to be constantly updated on the proliferating aspects or brands or ideas that are available (and constantly improving). And that is what Tuan has provided "a staggeringly complete resource for all the current forms of Internet marketing, most names of which you've never heard of much less understand or can use. Tuan changes all that. His subtitle "101+ best free hacks used by wildly successful entrepreneurs to build multi-million dollar businesses" is what this book is about. As he informs us from the start, "Without proper marketing and research, your ads, blog, or e-commerce website are not going to do as well as they can. It's like shooting an arrow in the dark and hoping you hit something, but you don't have to just get lucky.
