Customer Reviews

I'm not big on this sort of book anymore because so much info, pics and videos are available on the www. But the subtitle got me. I assumed evo would tap into their massive talent and experience base and provide us with the sort of insight only time behind the wheel of such cars can enable. They really didn't, choosing to pack the ~one page per car text with basic info most car fans already have both in their memory banks and at their fingertips. (Take a look Inside.
