# Ferrari (First Gear)

## Synopsis

Ferrari has been producing race and road cars for more than 60 years. In the distinctive â œFerrari Red,â • legendary cars with names like Monza, Testa Rossa, and Daytona turn heads from Monaco to Japan and around the world. In Ferrari, 60 milestone vehicles from across the companyâ™s history are profiled in detail, with a short history of the car, engine, and team, along with performance specs, trivia, and a detailed photo library. For any fan of Ferrari or performance cars in general, this is an enjoyable read full of valuable information and gorgeous color photos.

## Customer Reviews

One should buy this book for the photographs, which are very good to excellent, and capture a multitude of the most famous Ferrari models. Right off the back the book opens with a short chapter on Pinin Farina's (as the name was then written) Cisitalia 202, a nicely done short history with twelve color photographs showcasing a superb red example of this legendary car and epochal monument of automobile design. (There's one of these in MOMA.) This great start gets muddied up with a confusing overview previewing the upcoming chapters. I think the book would have read better without this section, or at least, without duplicating later photos. Too, better editing would have helped an ongoing and annoying discontinuity between page and image. Writing a review is not helped by such confusion, I must say! Also, themes and topics pop up here and there without any convincing larger focus - surely this book could have been better organized and not so

helter-skelter in its directions. However, despite these intellectual issues - or peccadilloes if you wish - the book does give a wonderful overview of Ferrari's greatest cars, most in pristine condition. Readers are treated to an embarrassment of riches as one section on a legendary Ferrari flows into yet an even more legendary model! The oh-so-critical colors are printed with great care - the paler yellow Luigi Chinetti demanded for the Sergio Scaglietti 275 GTB/4 Spyder (cars derisively derided by Enzo Ferrari as taxis!) is perfectly contrasted with a richer yellow 275 GTB. (The preview chapter boasts an even brighter shade - a screaming yellow 250 GT Short Wheelbase Berlinetta!) Chapter two covers Enzo Ferrari's career with a series of historic photos, but does not add any historical revelations.
