Customer Reviews

I really love this product. It has plenty of poses to learn. I recommened this to every inspiring model. It has plenty of information and visuals.

I think it depends on what results you're after, and this book shows a lot of unnatural poses. While some may find it useful, I did not. The one thing shown is the effect the background has against hair color.

You can find much more info from just surfing the web don't bother unless you want the same pose just different models over and over

The book is a bunch of pictures of stahed poses. There is nothing sensual about the poses or pictures. They definitely don't mert boudior stands.
