The description on [Amazon](#) does a poor job on informing you what kind of accompaniment you are receiving in this book. This book has the melody in the piano part. If you don't want the melody in the piano part, look for the book that says only "Vocal Selections" on top instead of "Piano / Vocal Selections". That book seems to be available on [Amazon](#) but isn't fulfilled by [Amazon](#). I ended up buying the other book as well after finding it and found that, although there are some very slightly minor differences between the piano parts, they were pretty much the same other than the melody being in there. It also doesn't seem to be dumbed down that much like many other piano books out there. I would definitely recommend this book. Just make sure you know what you want in the accompaniment before purchasing this.

Can't go wrong since the animated movie came out. If you've not seen the movie, please do so. If you've not seen the Broadway show, please make sure find some to see it.

It was my missing piece in my sheet music collection! it was everything I hoped and more!!! I love it!!!

While the interior of the booklet was fine, the cover was bent in half.

It came faster than I thought.. And the book is great!

Very accurate and fantastic score.

My grandson loved it!
