Customer Reviews

Scott Jurek's book, *Eat & Run*, is inspiring in so many ways. Although I don't (yet) aspire to be an ultramarathoner, I am a consistent runner (max out at 26.2 races) who greatly appreciates the solitude, freedom, introspection, and feeling of wholeness that comes from running. This is not a book just for ultra-runners. For anybody who is serious about body/mind/spirit issues, I think this book is an excellent resource whether a recreational runner, a frequent racer (no matter the distance), cyclists, and even elite athletes from other sports who will appreciate the discussion about performance, nutrition, competition, camaraderie, and self-doubts. A handful of things I appreciated about the book:- The coming of age aspect of the book: In this sense, Scott's life journey is told more like a novel than a biography. The transparency into Scott's life (both good stuff and bad stuff) as it related to his underdog social status as a kid, his relationship challenges with his father, the tragedy with his mother's sickness, and his circle of friends helped create a meaningful feeling of a kid who faced both normal and abnormal struggles in life while searching for meaning and striving to overcome.- Character development: Again, although this is not a novel, Scott and

Steve Friedman did a fantastic job developing the various `characters' in the book. We got to know people really well.
