Customer Reviews

First off, who in the world allowed this book to be published? It's terrible. He number one problem with this book was that there were no actual written instructions. The only words in this book was the name of the horse and step 123 blah, blah, blah. My second big problem with this book was how crude the drawing were. Many of them didn't even show you what the horse looked after you took off the circles and the other shapes that help you start off the drawing. The horses looks nothing like what is showed on the cover. Honestly I don't think that this book deserved even one star!

Unless I missed where it says this is a child's book, this is awful! 5-7 step photos, no instructions. Worthless.

It is very helpful to my granddaughter, but I thought the book would be larger. Even though it is small, it serves the purpose of teaching a young girl to draw horses.

Not a lot of directions.....it could provide more instructions in how to draw a horse, also, no written instructions provided.

Love it
