Drawing Tips For Beginners: Exploring Ideas With Pencil (Teach Yourself To Draw Book 4)

Synopsis

If you're looking for loads of illustrations (more than 100) with corresponding explanations on how to draw in simple terms, then this is a book you are bound to enjoy. "Drawing Tips for Beginners" builds on basic instructions given in previous books in the Series, showing you clever tricks that transform your drawings into interesting artwork. Join Author Kate Berry as she reveals all the tactics that helped her establish reasonable drawings while teaching herself to draw. The book is written in conversational terms, friend to friend. If you want encouragement, you'll find plenty within these pages. Ideal for young and old audience, any skill level.

Customer Reviews

I absolutely LOVE this book! The author has great talent, not only for drawing, but also for explaining clearly how I can do those drawings, too. Her teaching method is friendly and easily understandable. She gives tons of illustrations so I'll never run out of drawings to try! While it's called "Drawing Tips for Beginners" (which definitely applies to me), I think it would also be great for more advanced students who want to brush up on techniques or get some fresh ideas. Her other books are great, too -- all with the same friendly, understandable writing style. I highly recommend

ALL of them!

I actually have a minor in art from university, but really didn't understand how to draw. Kudos to this artist/author.

LOVE this book. Well designed for beginners and those who need a review. I've paid a lot more for a lot less.

It was just what I needed to move forward in drawing. Thanks.

It's a book you have to stick with and follow very closely.

I love the ideas in this book.
