Customer Reviews

I started playing the uke about 3 months ago and being a huge Jack Johnson fan decided this was a must. It's a great book easy to follow and has a good selection of songs. Wish there were more like this for some of the more contemporary artists.

My son loves Jack Johnson and was super excited to receive this book. However, he did indicate that a CD of the songs would have helped him hear what his ukulele should sound like when he plays the songs.

If your a fan of Jack Johnson, this is the book you'll want. This is a collection of 41 of his songs, The pages are easy to read and play to. The print is larger in size and the chords are easy to read. One should take note that this book does not have strum patterns listed. If you enjoy any of the songs listed in the book you will have to research You Tube, your favorite ukulele site, or other locations to obtain them.If this book had some strum patterns listed I would have given it five stars.The book

itself is bound well, has an above average glossy cover, and should hold up for years of playing.

Like other reviewers have mentioned there are no strum or picking patterns. Also, some songs have been moved to a different key than the recording, not helpful if you want to play along with the actual song. You can find better info online for free.

Ok so first off awesome to have the lyrics and chords. But I was hoping for actual tabs with melodies to learn from these songs anyone can strum along to chords the challenge is doing the melodies. So yeah slightly disappointed.

A lot of songs and a good selection. The only thing I would add is strumming patterns. Great if you like Jack Johnson!

Love Jack Johnson music...easy to use book...I knew all the songs. Much better way to learn when you know the songs

This is my favorite ukulele book to date, easy to read chord diagrams and packed with good songs, I would recommend this for any Jack Johnson fan
