I was SO excited when I saw that the Suzuki books/accompaniments were available for Kindle (I have the Kindle app for iPad). However, I just downloaded this, and the staves are chopped into so many oddly proportioned groups that it's impossible to use for performance. For instance, the first page of Twinkle Variation A only includes the first two staves. In the printed book, all four staves are on one page, so no page turning is required. If I were to play through all the Twinkle variations using the Kindle edition, I would need to turn the page (or swipe the screen) seven times! Way too awkward. I realize that it's probably chopped up like that to accommodate the smaller Kindle screen.

So if you're looking to buy this for reference only, it will work perfectly fine. However, if you want to use it for performance purposes, it won't help you. I gave two stars because it's so awkward to use. :(If anyone reads this who can re-edit the Kindle edition to fit the staves on the screen just like the printed book, please consider it! I would happily download ALL the series if it was arranged that way!

My child has started playing the violin. Thankfully, I can play the piano. The other kids are only able to play with a CD versus I can accompany my child, just like he has during his recitals. And, I can vary the speed as he gets better - again, the CD can't do that.

This is my fault - I didn't read the description carefully, this is not a violin instruction book. This is for piano accompaniment. Great customer service though, that took care of my problem and corrected it. Thank you!

The pieces are not too hard to play, and now my 6 year old enjoys playing his violin while I accompany him on the piano. It makes practice much more enjoyable, and we sound pretty good together!

the Suzuki violin book 1 accompaniments on my ipad kindle app is the best thing EVER, I have eliminated carrying around tons of books everything is right here on my Ipad! Easy to use, yes a little small but who cares, I always have the piano part with me!

Easy to read on kindle and no loose pages to fly around. Great buy. I will use this for my son's concert accompanist

Now I can accompany my daughter while she practices :)

If you are using the Suzuki method, just buy this book. I wish I had bought it sooner. My only complaint is that it is the new edition (go figure) and I like how the old edition looks better.
