Customer Reviews

By far the worst purchase I've made. The book great condition, I bought it new. The code doesn't work. The website it a total waste of time. Cant believe they even sell this. Just buy the used old version, save your self. I will be returning this product, Code for 4 CD's my ass. Send my the CD's what did I pay 200 for. A broken fucken link and a code that doesnt work. FIX it. I would give it A negative 5 star if I could.

Cengage download does NOT work with iOS - only Android or Windows. So, if you're an Apple/iPhone user, reconsider. The book was in great condition, but it did have a misprint - the page for John Williams' bio was blank. But, apart from the download not working for me/iPhone, it was okay for the price.

i guess its a good book but they dont give you much information comparwd to what the professor is

teaching, however it could just be that my professor doesn't know how to teach. she sucks

As a description of products, I didn't get my access code with music cd with rented book. is that really by mistake or joke?
