## Customer Reviews

I don't particularly have a suit fetish but the models are absolutely flawless. These are real MEN, guys with natural bodies and hair on their chests not the pink, shaved boys or steroid clones that you usually find in male nude photography. And I can't say enough about how stunningly handsome the models are. I have about two dozen books in this genre and I have never seen a collection of more uniformly beautiful male models in one book before. They really take the breathe away...its hard to believe such good looking men can even exist. And though I would have rather seen them out of their suits at least the most interesting part is disclosed in most of the photos so this book is more than just another tease. Its really been years since I've enjoyed a photo book this much. I'd give it 10 stars if I could.

This book made me speechless. The premise (what's under those business suits) is a great one and the photography is wonderful. The models actually looked like they were enjoying this job! Wow. I'm female and thought this book was very hot. Wasn't sure what to expect when I bought it but was certainly NOT disappointed!

From the boys at Men At Play and very well done! Featuring hot models suited to perfection involved in various stages of dress, undress and "suited" adult activities! Not for everybody but if you're into the whole "guys in suits" thing, this is very well done!
