I love LOVE this book. I taught 3rd to 5th grade Recorder and each day I used this book to teach my students. A Cd comes with the book and both were the perfect tool to each my students beginning recorder. I recommend this book to ANYONE who wants to learn the recorder. It seriously was the best beginning book / program for teaching my students that I have found. I love the music in the book and my students couldn't wait for Recorder class. I tell you honestly that this book is Fantastic. In learning any instrument it is 10% knowledge, 90 % practice with that in mind this book really does make learning the recorder easy and gradual.

The DVD is a bit dated, but okay. It is difficult to follow the pieces since there is no printed materials. Looks like there is version for sale with a book - I should have probably gotten that one.
