Customer Reviews

This book is definitely worth it for the amount of time and aggravation it saves by giving you direct access to the plug ins and a brief write up of each. The book is divided into functions which makes it easy to manoeuvre around. For a resource book, this is what you need for referring frequently to the plugins needed for a website or blog. With so many choices out there, and so many "bad" plugins that are a waste of time, it is great to have this book as a reliable source for when in doubt. I would certainly recommend this book if you want to save yourself time and hair loss.

Before reading this book, I thought that I was up to date on WordPress. Boy was I mistaken. I had no clue as to the amount of plug ins that now seem (to me) vital in running a WP site. The Author went above and beyond in the book, while clearly referencing other helpful links for more information. This is a definite keeper. Well done!

It's only $0.99 for Kindle version or Prime members can Borrow it for freeIt looks like the results of someone doing research and then they published their resultsIt helps get you started because Google returned "About 36,900,000 results" today when you search using "WordPress Plugins"Also,[...] appears to be a link to the author's online learning marketplace that has a several fee $$$ based courses and a free course "WordPress Profits: WordPress for Authors and Instructors"[...]

Thanks for the great effort in evaluating and sharing the research results. It really saved me weeks of trial and error - narrowing my sample universe to a manageable few. Highly recommended for those who wish to achieve more in less time. Thanks again !

If you use WordPress this book is a must-have!

Pretty good collection. Out of over 35,000 plugins these will be the best utility plugins. The author has saved us countless hours be creating this list.

Excellent presentation of plugins categorized by function. Each plugin is described briefly. I read it from cover to cover in one sitting. Will refer to it frequently. Also includes a list of 70 sites offering free graphics.

Thanks for your details information. Save time for all readers. All in one click away and new informations too. Thank you.
