Customer Reviews

No nuts and bolts, just a lot of BS selling 88 items a day, just wants your email, so he can make affiliate \$ off your purchases to learn how to do sales. Don't sign up for newsletter just a scam to get your email

'Read on Kindle Unlimited' - The book is well written, with only a couple of minor typos. The author does a great job motivating an entrepreneur to start selling with his system...BUT he never gives you anything that would actually help you to start your business. The numbers behind the business

sound promising, BUT he never tells you how to get started finding products or how to make a good listing or... I could go on and on.

There was so much hype I thought I was going to hyperventilate in the first half of the book. In the second half there was so much accounting yakitty yak and very little substance it just wasn't the read. If I could I would give it 0 stars.

If you have any knowledge whatsoever of sales, this book is a complete waste of time and money. There is no "meat" in this one.

Wait...hold on, wanna make more? Absolutely!!!!Full of imaginary numbers flying left and right throughout the book that reads like one big infomercial (i.e.YOU,CAN,BELIEVE,MONEY)and other lil cheap tactics.P.S. And yeah...don't forget to subscribe to UN-newsletter.(you'll be reminded thousand times about that!!!) BELIEVE ME.

This Book has no content.But worse. there is something fishy about it.There is no way that the author hi,self is making 1k profit on . Is the name Bradford Sullivan even real?This Book is merely his way of making you sign up for his other training products.This is a typical low quality item with fake reviews just to get some sales.What the author did not yet know about selling on is that bad products always get bad reviews, and thus soon disappear. Like this Book will soon be gone.

I agree with one reviewer who says this book has virtually no content. I do believe it is possible to do very well with with Private Labeling. However, this book doesn't even give you a rough overview of how to start this endeavor. It's really just a bunch of pipe dreams and what ifs with some numbers flying around. I gave it three stars because at least it does tell you such a thing exists and I suppose if your are so inclined you can go from there.

You can get a copy free if you go to the authors website, this upset me just a bit since I spent .99 cents. Good ideas. It will cost you some coin and time to execute the plan laid out in the book however. The author does drive you to take action! Really fast read...
