## Customer Reviews

At the outset, my skepticism got reinforced when I spotted the less than standard copyright notice, but I plodded on hoping to find some morsels that I didn't already know about writing to produce a profit. Sadly, there really weren't any. I used passive voice intentionally there because this book gets bogged down in "is" and "are" variations. The author tells us rather than shows us in his text, and if you're looking to make "pennies per word" or "over \$50" on an article (correct grammar would suggest more than \$50), then perhaps you will find wisdom within these pages. Disappointed with content and sentence style among other things, but the cover does appeal.

I've been thinking of making money through writing, yet I don't really have any idea on how to start. Fortunately, I happened to stumble upon this amazing book by Efron Hirsch. This is such a

blessing for me since I am awfully in need of a reliable guide to read. I like how the author has written the content in a clear, organized and easy to understand manner. I totally appreciate that he has shared his knowledge to others by writing this book.

This is really an awesome book that teaches us the different ways to earn money online my writing the different contentâ. This book, as the title stipulates, reveals the best ways to making money writing, and if you are serious about writing, then what you desire you shall have!

I do think that writing is a good way to make money. Nowadays, a lot of freelance writers are getting popular and earning a lot of money through writing with the use of internet. the book discussed about how you can start in this kind of job and some dos and don'ts that comes along with it.

If you are good in writing this book will help you earn money out of it. This book is a great guide on becoming great writer in the future. Happy to learn many tips from this book.
