## Customer Reviews

Hi, I'm Douglas Burdett, host of The Marketing Book Podcast and I'd like to tell you about the book "Chief Customer Officer 2.0: How to Build Your Customer-Driven Growth Engine" by Jeanne Bliss. More and more marketing books and the really smart people who write them will tell you that the last available differentiator that will grow your business is the experience that your customers have with you. Think about it. Most products and services are at parity now. Pricing is more competitive than ever. And even the best marketing will only help to get customers to try you once. And that's because if the experience your customers have with you is a bad one, they will not return. And, they'll tell the world on social media and review sites to stay away from you. But if your customers have a great experience and you delight them, they will remain loyal customers and tell others. And that is the most powerful marketing " studies show that people trust word of mouth recommendations from friends (and even strangers) much more than what a company says about itself. As a result, smart, growth-oriented companies are carefully engineering the entire experience that their customers have. And as easy as it is to say that, it's really complicated to do. But it can be done and when done properly it can have a dramatic effect on a company's growth. In "Chief Customer Officer 2.0" Jeanne Bliss walks you through precisely how to do it. The book has lots of examples of companies that have broken through and refocused their business on customers. And the linchpin of success is getting management buy-in by showing the math used to measure and hold all the different silos accountable for the customer experience.
