Customer Reviews

I read this book in one sitting. It was certainly packed with some awesome content. I would refer to this as the blueprint to how to manifest whatever it is that your heart desires. Costas and Justin did a marvelous job with this book. I highly recommend it to anyone who is really ready to change their life for the best. I also love their content that they provide on their YouTube channels also.

With so many books, options and angles to the LOA; this book is effective in getting the meat of

what to do to make "it" work. A 30 minute read which can be done swiftly and without excuses. Think of it like receiving a handful of "hot" stock tips. Follow the tips and your life will change dramatically. Ignore them and stay stuck on the hamster wheel. You have everything to gain!

This booklet was the best version of "how to apply the mind to the outcome" that I've ever picked up. Aside from The Secret, Law of Attraction, and a few others, many of these kinds of books re-talk the same instructions in a way that doesn't connect. For me, this short conversation hit hard and turned the light on so bright for me. It's a step-by-step, no-nonsense, can't go wrong, very specific, and inspiring list of deliberate instructions inside. I highly recommend reading every page and right now.... I'd also make sure to keep this book close by, at least until you have it down packed. That's what I intend to do. I've had plenty of success in life, and lately I've slumped into a realm of procrastination and doubt, I feel blessed to have received the energy emitting from this gem. A+

I read this book within an hour and immediately applied the techniques. 30 days later from applying the tools given in this book, I went from making no income to \$4,000.00 a month (literally) doing what I love. Yes, it's a big jump in only 30 days but that is the result if applying what you know or what you read. This book is clear, compelling and simple to understand. I highly recommend to read it but I **STRONGLY** recommend to apply the techniques immediately.

Well worth the read. I am a great fan of law of attraction books. I have also read the other book by the co-author Justin Perry. I liked all the quotes from the celebrities. I finished the book pretty quickly. It's very interesting to see that celebrities also uses law of attraction.

A nice refresher course on a lot of the success books out there. Straight to the point and has all the information needed for success.

The secrets in this book is geared up to achieve success in life. The Law of Attraction and quantum physics as its foundation. It could take you from zero to hero. The power of thought is greatly emphasized. I know my life will never be the same because of thia book...Great read and thanks to the universe I found it. God bless

This was a quick and easy read that really gave you detailed steps on how celebrities use the law of attraction and how you can too. As someone who also writes about the power of the mind, it was

good to read an accurate account.
