## Customer Reviews

The description of this book isn't very clear! But I took a chance on it. It is the piano/vocal/chords - sheet music for Millennium! I just started playing guitar, so I LOVE it! This is great for any Backstreet fan that plays an instrument or sings.

Fantastic sheet Music book Of Millenium by the Backstreet Boys. Includes all the songs From the album in it's original key. Great to play on the piano. Unfortunately as I could not get a brand new copy,I purchased a second hand book,which has writing on some Of the pages. That is quite annoying but still in good condition.

This book is definitely a great investment. It's got all the best songs off of the Millennium album. It offers a wide variety of difficulty so pretty much anybody can play from this book. It's amazing!

This piano book is amazing!! I mean, the Millenium CD had awesome songs on it, and the sheet music provided in this book does not disappoint. There are a few difficult key signatures, but with

practice all of the songs can be played. I'm EXTREMELY happy with this book. Granted, a few of the songs sound weird in the piano version (Don't Want You Back, Larger Than Life, and a couple others), but they're still fun to play. I especially LOVE the arrangement of The One, my favorite song on the list. All in all, this book is amazing! :)
