Synopsis

Jericho isn't the famous rock star he once was, though he still plays in a local band and loves to party. Beautiful women come and go, but music is his only passion - until a sassy redhead named Isabelle Monroe shows up unexpectedly. Izzy has always loved the freedom and adventure of life on the road, but she has recently decided to settle down-as much as a rogue wolf can. When her boyfriend gets her a job working at a hot Shifter bar, she runs into the last person on earth she expected to see again. Old habits die hard, and sometimes the toughest addictions to shake are the ones that control our hearts.

Five Weeks is book three in the Seven series by Dannika Dark. I loved Ms. Dark's Mageri series and really enjoyed the first two books of this series. But, I have to say that I think this third book is my favorite of the Seven series so far. I loved Izzy and Jericho and also loved revisiting the characters from the first two books. I spent a lifetime running away from my problems |Until I had a five-week collision course with fate. Outside the sheets, no woman had ever made his wolf pace restlessly. No woman had ever made him feel an inexplicable desire to behave irrationally, no woman had ever made him want to be a better man. No woman had ever denied him |Except one. Jericho Sexton Cole lived for his pack and for his music. He left the rock star life behind, along with his drug habit. But he still lived the crazy life of a musician. Women threw themselves at him, he could have any he wanted. But there is one woman from his past that still

haunts him. The only woman that really ever meant anything to him, Izzy. Isabelle Marie Monroe, or Izzy, has lived a lonely life. Her own family never accepted her. She has never had a pack. The five years she spent with Jericho were the best years of her life. But that was in the past. She needed a place to stay so it was so easy to fall in with Hawk. He was good to her and said he wanted to take care of her. But there was a side to Hawk that Izzy didn't know about. He was involved in some bad things, things Izzy could not forgive. Right when she needed him the most, Jericho re-enters her life. The bond is still there, but a lot of years have gone by. Can they forgive each other? Because of what Hawk has done, now Izzy is in danger.

Book Description Izzy Monroe had lived a life on the road as a rogue wolf for far too long. With the urge to be around more of her kind, Izzy finds herself working at a hot Shifter bar in Texas. Little did she know that she had stumbled upon the home of her strongest love and greatest pain, rocker Jericho Sexton Cole. Jericho's only passion was music until Isabelle Monroe walked back into his life. Not knowing what had happened to make her run five years ago had plagued him every day since. The question is, does Jericho have enough passion to take what he wants this time around or will he choose the life of a lone rocker over one with the wolf of his dreams? **Review** Dannika Dark is one of my all time favorite authors. She absolutely captivated me in her Mageri series and the Seven series is no different. Dark has created a unique world of magic filled with Mages, Shifters, Vampires, and Sensors. With all those Breeds combined, you can imagine the drama that ensues. The Seven series follows the Cole family of Shifter wolves that make up the Westin Pack. Five Weeks is Jericho Sexton Cole's story of falling back in love with the one wolf that got away, the sexy redhead Isabelle "Izzy" Monroe. With their kind of history come issues of loyalty and trust as events from the past try to overshadow their progress in the present. The story line of Five Weeks was fantastic! It had just the right amount of build-up and suspense to keep me turning the pages into the wee hours of the morning. I particularly enjoyed Jericho's sense of protectiveness and his ability to feel when something was wrong with Izzy. They are true mates in every sense of the word.
