Customer Reviews

The author of this book intended it for the convenience of teachers and recreational leaders who cannot read music and therefore cannot learn hitherto unfamiliar songs from musical notation. However, it has other uses too. For instance, it is good for a music teacher with a beginning student. In this book, there are 26 songs to the tune of Mary Had a Little Lamb. If the student's friends and relatives sing those 26 songs while the student accompanies, the student will get plenty of practice and have fun at the same time. Other familiar tunes appear with comparable frequency. The book is also good for teachers of English as a second language. Most of the songs are repetitious pattern songs which the students could easily learn. 0911019073, 0911019022, and 0911019014 have all been very helpful to me both as a music teacher and as an ESL teacher.

I bought this book on a recommendation from a respected source. I should have realized from the name that the tunes would not be original.

The book is very useful - there are short and long songs, of varying texts and styles. It works well with my ESL students.

Great condition, will purchase again. I use it in my little choir and in Sunday School.....kids love the

songs we sing

Great resource for anyone who works in the child care field . It is filled with tons of kid-friendly songs !
