Tracks: Nürburgring North Loop

Synopsis

Motorsport fanatic Stefan Bogner has now rediscovered the North Loop, capturing its magic forever with his camera. Despite their documentary nature, Bogner's beautiful images are packed with the emotion and exciting details combined with specific information about the various sections of the track, its contours, the best overtaking opportunities and the right places to apply the brakes.

Customer Reviews

A very great 'ring book - the photos truly capture every tiny detail of all the critical bends and braking areas, including the smallest of tire marks and graffiti - and the artistic exposure almost gives it a ultra-super High Definition painting like quality. Very helpful for describing actual lines to somebody - Even the curbing binding is a great touch - will look great in my bookcase. Note: Now that its in my bookcase, i can't help but notice the spine is printed upside down! Not enough of an issue to detract from my 5 star rating though - makes it that much more unique.

I have a love for books, and an even bigger love for the Nurburgring. This book is amazing it is one of my favorites in my collection of many. Great coffee table book, for a great price. There is almost no text in the book. It comes with a track map and a turn guide, the entire if you're a fan of the nÃ rburgring you need to own this book. If you're a fan of the Nurburgring you need to own this book.

Simply beautiful! Nice photos from the most famous track in the world.

Beautiful book, beautiful pictures.

Good
