Customer Reviews

Not sure why there are some harsh reviews on this book. Each lesson is 2 pages and includes about 5-7 licks. There is pretty much every type of country licks within this book and it is tremendous value for the money. The authors also clearly explain the theory behind pretty much every lick. If you are just starting out it's probably not the book for you but it is a very good supplement.

This is a really good book! I would recommend it for an intermediate level musician who already has a good grasp on general musicianship who possesses a decent level of skill on the instrument, who is seeking a good overview of the country idiom. The lessons in this book will provide you with

plenty of material that will allow you to add believable country vocabulary to your solo and accompaniment playing. The lessons are short, and are in standard notation and tab. The accompanying CDs are well recorded, and offer extra insight on how to make the lessons sound just right!! I would highly recommend this book!

My fiance' LOVES this!! I was not sure it was going to be something he would like because he is in a band and I figured he would know all the lessons so it was a coin toss for me to get this for a christmas gift but when he opened this , it was the greatest gift- very well made book and Thanks for a great product and will order again for sure.

I love this book and it's sibling, 100 Jazz Lessons. These publications are superb. Each lesson is two pages, about what you'd get from a weekly guitar lesson, and just enough to chew on so you don't feel leaving hungry or overstuffed. You can also get an approximate DVD companion called Country Guitar Licks Gold Mine.

I'm only into the first few pages of this book, as I'm finding in each short lesson a wealth of possibilities for permutation and application. I'm giving it four stars based solely on the value I'm finding in its first ten pages. I look forward to further evaluating the book as I progress through it, though I doubt I'll finish anytime soon.

Nice book and well worth the money. Some licks are easy, some are difficult. Every one of them is on the CD. Because I like this book, I'll also get the 100 Blues Lessons. The only reason that I wouldn't give it 5 stars is that it feels like relies on the 'standard' Country scale a bit too much. However, there are several lessons using uncommon scales and arpeggios - so it's not a huge deal and with a little effort, they can be altered. Tons of great ideas!

loo country licks would have more aptly described this book. Over all it is a great book for a intermediate to expert player. It does offer a chance for the beginner to become a better player but will require a lot of study.

Good book with a lot of varied ideas and info. Plenty of ideas to challenge and inspire you to new ways of playing,
