Customer Reviews

A pretty general overview of common, mostly mediocre approaches. Not the greatest investment of \$4 and 20 minutes ...

This book is a great guide for anyone wanting to create one or more passive income streams. I really like the fact that the author is really honest about what it really takes to start making passive income, and he's not trying to sell the idea of getting rich quick that most books try to sell. He makes it very clear that creating a passive income stream takes time and effort, but it can be done, and he shows you exactly how you can do it. Great book!

It is an excellent guide book enclosed with multiple streams of passive income to help me with achieving financial freedom. This book includes the procedures of passive income through eBooks, Affiliates, Apps, Youtube and online courses. It describes everything needed to get started in a very short, easy and realizable way. I found it very useful.

If you are interested in making passive income, whether through your hobby or even a grand business idea, this book will help you get started; it really does cover all the bases you need to know before you jump in head first, and ensure your head in the best place possible when taking on this new chapter in your life. This book has explained so much about it too. It has some great stuff about

the different ways that one can earn some income. Ways like going for the Kindle Marketing, FBA, and the likes. Once read thoroughly, this book can be a great help to anyone wanting to start earning some passive income. If you're into business and want something new, this book is totally for you. It's very detailed and informative.

If you read this book you will be able to learn the details where to invest through online and to what type of business. This book includes the procedures of passive income through eBooks, Affiliates, Apps, Youtube and online courses. It describes everything needed to get started in a very short, easy and realizable way. This book gave me a walkthrough and everything I need to know about passive income providing the risks and the pros and cons about this type of income. The author has described every single part very clearly and step-by-step. Great book.

Ralph does a great job of outlining the different paths for creating passive income. As if you didn't already need a reason to switch from active to passive income, Ralph outlines the benefits of passive income and what it can do for your life. I like the hard truth that most of us won't make a huge salary in our life. I currently sell ebooks and my own products and let me tell you Ralph is correct in saying ebooks is the easier path. I disagree that it even takes more upfront work. Ebooks are the way to go.

It feels nice knowing you can earn money just by doing nothing, but it involves some effort both at the start and also to manage. After reading this book, I realized that there are so many ways to make passive income. One just need the knowledge to be able to get these things and the author of this book has done a good job in providing this knowledge for the reader.

Though this book only covers a small generalized area I found it to be quite informative and thought provoking, this is exactly what I was looking for, ideas, directions to go into, etc. now it's up to me to explore further ideas! I recommend this book to everyone who is interested in PASSIVE INCOME.
