I'm so happy to have this book. It was hard to wait for it. I'm not particularly good at either piano or guitar, I'm working on the Volcano one right now and can zing down all the keys just like they do in the albums and it's great. My husband and I love a lot of his songs and we'll be able to sing along!

This book contains all the piano music, guitar chords and lyrics. It easily enables three or four people to get together to play and sing. For years, there was only one Jimmy Buffett book available and it only contained the songs on the "Songs You Know by Heart" album. This book has many more songs to offer at a great price.

Really like this book. I'm a mid-level hobbyist and this book is the perfect level for me. Songs selection is great and all are playable for me.

Was very pleased at the variety of music in this book. It was for an older lady who plays piano and it was good for her to follow.

I gave this collection a four star rating because it is well written and contains some well known songs. Then songs are very good I would recommend them to anyone. It contains plenty of good music..
