Zentangle: 33 Zentangle Patterns To Inspire Your Inner Artist--Even If You Think You're Not One!! (Zentangle Mastery Series Book 3) (Zendoodle Mastery Series)

Synopsis

Have You Seen Zendoodle Works Of Art And Been Inspired To Create Your Own? But Don't Even Know Where To Start? Maybe you're not even sure what Zendoodle is, or simply don't feel like you're qualified to be an artist. If any of these scenarios apply to you, then my Zendoodle Mastery Series is the answer you've been looking for! >> Volume 3 includes 33 brand new patterns that I haven't released previously.

Customer Reviews

I have purchased a few books on zentangle because not only did I want to know what it was about, but also to see if it could help me to relax and help with my tremors. Thus far this one has been the best at being instructional. I'm not an artist by any means but it gives me a starting point for practicing certain strokes and attempting to gain better control of my pencil. I purchased this book at a sale price and intend to buy the other editions soon.

I have recently discovered the beauty of Zentangle and have bought several books on the topic.

This series is one of the best values on the subject that I've found. The author provides a little background on Zentangle, but my favorite part is the pattern section that includes easy to follow instructions. I also loved the free gift of additional patterns and borders. I bought another in the series right away and was not disappointed.

Nice book with easy to follow pattern illustration. Also appreciated the bonus. But the nicest part of the whole purchase was when the author followed-up with me to see if I was enjoying her book - which I am. Thank you Olivia.

This series has been super helpful to me as I e learned about Zentangle and Zentangle-inspired art. I love this drawing method. It's easy but you can make it more in-depth as you learn more tangles and techniques. This is my relaxation method and I can do it while my husband watches TV. Olivia's book series is wonderful while quite inexpensive. You always get your money's worth and volume 3 is no exception.

This is a very simple book. I expected more intricate designs. It's just not what I needed but my 10 year old granddaughter might like it. Also I would like to see a back cover or a page containing all the finished designs together.

I will be able to follow the steps to make the patterns, but the illustrations are a poor help. Dimensions are poorly captured on some of the patterns and some of the illustrations look hurriedly scribbled. Why would a published piece, intending to help readers reproduce a pattern, be so poorly illustrated?
