Customer Reviews

Last week I threw my back out. So what did I do when I couldn't do much of anything other than sit my aching booty on ice? I bought JA Hildreth's "Potty Mouth" for my Kindle and began to therapeutically color through my pain. I absolutely love this book! I dig all the pattern variations in each design and I like that there is a PDF link included so that I can print pages to color individually. Research shows that using profanity can reduce pain and coloring reduces stress. Perhaps this is why I feel better while coloring the pages of Potty Mouth?

I love this adult coloring book! I feel like a naughty child getting all artsy coloring in this book. There

are a few of these pages I would love to color and send to a person or two, though I never will.
;)Some of these pages I can tell were inspired by her husband's writing and since I'm a fan of his writing, I loved seeing those words.Be sure to hide this book from your kids. This one is ALL YOURS. ALL ADULT ONLY.

This coloring book is amazing!! Nothing like putting some of my favorite things together at once.... coloring and fowl language!!! I bought one for me and friend... All that's needed is a bottle of wine and colored pencils!!! :) Great job Jess

I think my vocabulary is officially expanded. Now this bitch has to go out and buy some colored pencils or markers or something to color with. I don't think I'm even above pricking my finger and using my blood to color. This is so awesome Jess. I think I have a new something to do when I'm pissed off and frustrated. I will just lock myself up with my crayons and coloring book. My husband prolly won't have lme committed as long as I don't lick windows and wear a helmet. Lmao

Mommy needed a new coloring book!!! hahahaa :) It's sooo awesome!! I had seen a few of the screen-shots the author posted and I must say, HELLO!!! I love getting this and breaking out my colored pencils and loosing myself in the pages of the hot little coloring book!! I have included two of my favorite screen shots that she shared of the book!! So happy I one-clicked, so don't come looking for me....lol...I will be in my comfy spot coloring!!!It's on kindle too!! Potty Mouth: A Coloring Book for Adults

OMG!! When this arrived yesterday in the mail I was so excited. The words are great. The designs to go with the words are even better. The first one was F* and boy did I relax as I colored and just had adult me time. I couldn't see the hype about adult coloring books cause to me the kids one at the dollar store is fine. BUT BOY WAS I WRONG!! The coloring books by J A Hildreth will make you see that. I mean where else can you color your favorite swear word and have flowers or other awesome designs around it? WONDERFUL AND EVERY ADULT NEEDS THESE

I been wanting to try a adult colouring book for awhile. I searched for them here and after reviews and looking at samples they weren't very good. Some were totally ridiculous and forgot that you need to have space to colour in the word and picture, some of the quality was just not there, they didn't focus on that aspect. After going through all the pages of pouty mouth you can definitely

colour them in easily. Even though it doesn't have my fave swear word, the words are good and there are also some new ones which I have never heard which makes it fun.

After a long day of working with the public and not being able to say all the words that hover on the end of my tongue, abusing the backside of my front teeth as I give them the most toothpaste commercial worthy smile, it is so fulfilling to come home and color the exact word that I wanted to scream at the top of my lungs! I can make it beautiful and shiny and chant it like a healing mantra for the soul....Please say there would be a vol.2. I can totally give you some additions!
