## Customer Reviews

It has no tabs, so therefore it is useless to me. Looks nice though for a book, not an address book--as such I would be eternally hunting and folding pages over. I foresee this becoming a big mess quickly.

One star for the colorful cover. However, it's a softcover, so when your filling in information you constantly have to be holding down the book. Using the left side is nearly impossible. I picture myself writing out Christmas Cards and having to hold the book open instead of holding down the card and envelope. Puts a damper on it the job, for sure. Not worth the money.

Was disappointed that it is a soft covered book...description failed to state this. Just assumed it would be a hard cover.

Love it. I am a letter writer, as in stationary, pens, stamps and card seals. This book not only an

address book but it helps me with birthdays in my very large family. I would recommend this to family and friends every day of the week and twice on Sunday as the old saying goes

Don't know if I missed it in the description or if it wasn't mentioned, but I had no idea the book was soft covered. Since that definitely affects the durability, I never would have bought it.

I wish it had tabs, but there is lots of space to write and lots of categories that are all ready entered.

It was awful. It was torn on one edge and looks cheap. I did not use it.
