How To Win The Lottery With The Law Of Attraction: Four Lottery Winners Share Their Manifestation Techniques

Synopsis

How to Win the Lottery with the Law of Attraction was written by Law of Attraction lottery winner, teacher and author Eddie Coronado. Based on interviews with actual winners who have used the Law of Attraction to win lottery prizes, this audiobook provides the metaphysical tools and insights that are necessary to win lottery and contest prizes through the creative power of thoughts and feelings. Although this audiobook contains the manifestation techniques of people who have won money, these metaphysical exercises can be used to attract the perfect mate, a new career, financial success, or anything that you can make a part of your beliefs and feelings. There is no limit to how much money and success you can manifest through the Law of Attraction because this immense spiritual power does not have an opinion about what you should or should not have. You can use the Law of Attraction to manifest 10 cents or 10 million dollars. The determining factor is belief and expectancy, which can be harnessed by using the spiritual tools discussed in this audiobook.

Customer Reviews

I just bought this for my Kindle, and I have Eddie's first book, which I will re-read soon, as well. When the student is ready ... I felt that with all that I had why do I need something else. I have met the statements of many lottery jackpot winners, there are numerous stories where people prayed and won a lottery, of varying amounts, that literally saved them at the last minute from losing homes. Some stories go into a thought process, but most you simply glean. What is very common with

many jackpot winners and others, is that they use quickpicks and they're not big lottery spenders -- it's affirmations, visualizations (together or not) with a lot of faith and trust. This book has shown me, through these experiences, where I still need work in my overall transformation, and the amazing amount of what I am doing that is in line with manifesting great things that I desire and require, and that I totally deserve. I really appreciated the second story, because this is someone who manifested good while the outer appearance and circumstances was definitely difficult. Walking "by faith and not by sight" is, I feel, the most difficult part and the second part is dealing with negative people -- the worst of which can be those closest to you, especially if they are part of the religion you grew up with, and you made the mistake of discussing stuff with them. I got called a liar and a heretic and everything in-between by someone I love. Lesson learned -- and you'll hear Eddie tell you this -- zip your lips. On the other hand, in reading lottery stories both in the States and in EuroMillions, people have endured ridicule, because they didn't keep it to themselves, but they obviously managed to withstand the naysayers and realize the truth of this law.
