I am a beginning cellist and absolutely loved playing these pieces. They were not too difficult and the joy I got from being able to play them is great. Highly recommended if you are a fan of theatre.

This book covers the gist of the melody, it isn't complex, which works pretty well for me as a beginner.

If you loved The Phantom of the Opera and you're looking to play the music from that amazing musical, this is the song book for you and your cello. It's exactly what it says it is and the songs are a lot of fun to play and sing along with, if that's something you like to do.

Enough difficulty for a beginner like myself to tell when I was improving, and easy enough to not be

intimidated. The melodies flow very well and are very satisfying to play, I've enjoyed this book immensely. I've even found myself liking songs that were anything but my favorite when I watched the movie. If you're a beginner, I highly recommend this!

This book is great if you want to hone your cello skills to something fun and that sounds familiar, especially if you love Phantom. Just take heed, this is not a score, by any means. There are errors, but they are apparent until you hear the correct version straight from a real score. I was pleased with the songs, nothing I wanted was missing. In general, it is a pretty easy book; I learned "Music of the Night", after about a month of lessons, but was not ready for the rest yet. I look forward to tackling more of the songs, as my skills with the cello increase!

I love this book absolutely amazing the music is great and I ended up playing a song from this book for my solo in a competition and won 1st place and a gold medal this book is not really for beginners alot of very high notes and shifts in alot of the song.

Easy to play and all the pieces are very recognizable. Understandable and a lot of fun to play. Bravo, Bravo.

The music is not too difficult, but is a fun way to play some of your favorite melodies from Phantom of the Opera.
