Customer Reviews

This has been one of my favorite coloring books by far I love the designs. Each page is complex but easy enough to complete in one sitting. I have nearly completed the book and will buy some of the other books in this series. One thing about this book is the paper is really nice with a smooth texture that takes ink really smoothly with full coverage without requiring going over multiple times. The pages are perforated so they can be removed and used as journal pages or framed. I use markers and unfortunately they bleed through the page so the reverse of the page is dotted up with bleed-through but there isn't much help for that. Also, the designs are all different but have similar design elements from page to page so the lack of variety in the details might not appeal to some,

Otherwise I love the book myself and highly recommend it. I used a wide variety of pens - sharpies, color pencils and gel pens.
