## Customer Reviews

If you're real good player. You might get a little bored with this book. It was made for intermediate and beginner's I been playing about five years and worked out just great for me. If you are like me intermediate player you love this,

Received th book and it's okay. Not a lot of songs and few of them that I know so it will be used alittle, hoping for more

I ordered this book and two others from the "Essential Songs" series. I thought the books would contain the horn parts from the songs. The books contain the vocal melody line transcribed for that particular instrument. I am really not interested in hearing a trombone/tenor sax/trumpet (or any other instrument) play the vocal line to "YMCA". I returned all three books the same day I received them.

This book opened up new experiences for our sax player.

I can always count on to give the best price for music. I do not even look elsewhere. I do not know of anyother place where I can buy Hal Leonard music for a reduced price.
