Tiny Houses: The Perfect Tiny House, With Tiny House Example Plans

Synopsis

A tiny house is not just all you could afford or a way to look down on your home. Instead tiny house living is an intentional movement to become minimal and live as efficiently and freely as possible. Whether you want to downsize, whether you want to have a house that is cheaper and easier to maintain, or whether you just love the idea of living in a tiny house this is the book for you. In *Tiny House Living* you will be taken through the many stages of building, designing and living in a tiny house. You will be told the pros and cons, the difficulties of getting housing permits, how to use your space most effectively and how to find the best location and land for you. With a tiny house you will learn how to live large and truly appreciate the things you have and not allow the things you don't need to control you. Discover what a tiny house is and why people the world over are falling in love with them. Find out the best approach to building your tiny house and how to save money doing it. Learn secrets spots to store your stuff without it ever getting in your way and how to use color and light to make one room seem like three. Example tiny plans for your tiny home; five examples to choose from.

Customer Reviews

I find this *Tiny Houses* book a comprehensive guide. It can be a big help in getting ready in starting on a journey to living an environmentally friendly and financially free lifestyle within a limited space. There are even house plans that one can choose from. I found this book very informative and very detailed. Imagine living in a tiny house and downgrading your usual life in order to be a little bit financially free. This is going to be a great experience. What I appreciate most in this book is that it

has given different situations and the possible questions that one needs to ask himself before actually venturing into living in a tiny house. This is good for evaluating how ready one can be. This has been a learning reading experience.

I am a busy working person and I prefer a small house for me and my wife so it wouldn't be a hassle for us to fix and clean it every day before and after work. And I'm glad that I came across with this book. Perfect with what I am looking for that certainly will guide me in planning our tiny/small house. It covers all the information I need, from the things to be considered in planning, preparing, and even up to modifying. Another plus side of this book is that several sample plans were included so you can have the idea how it will go to build a small house. Another great book to keep!

I found this book extremely educational and exceptionally point by point. Envision living in a modest house and downsizing your standard life so as to be a tiny bit monetarily free. This will be an extraordinary ordeal. It is an exceptionally intriguing book not just for the individuals who live or are willing to live in a modest house additionally for the individuals who live in little houses and need to have some smart thoughts that offer them some assistance with making great utilization of their space. This is a formula for jumbling! I cherished the colossal thoughts of various arrangements on how you can plan your own particular small house.

This is a great book to read especially when you're interested in considering other options of your dwelling. Building tiny houses is no easy task because of slight fittings that you need to regard and some other considerations that are also mentioned in this book. I find tiny houses very fascinating and would love to stay even for just a few days for holidays maybe. I commend the balance writing of the author. It's well interpreted in the most fair way.

This book seems to be really interesting and informative. The idea of having a small or "tiny" house is something new yet worth trying. I liked how the author provided short, yet amazing and helpful, tips and details that can surely help a lot of families. The author successfully aided readers from the things they need to buy or get until the plan or ways they can create a tiny house. This was one of the great reads I had this week!

I have now read about what tiny houses are, who they work well for, the process of getting my

house built, how to design the interior and common obstacles I will have to overcome. I am positively filled with more excitement than trepidation and I am ready to downsize in at least some form.

My husband is interested in the construction of houses. The house in which we now live, he built himself. This book will be very interesting to him as the tiny house he had not yet studied. I'm sure he will enjoy it as a great book!

I have always been interested with tiny houses, and people who live in it. Living in small spaces like tiny houses is now trending since it has minimal maintenance. The book describes what tiny house it, the problem of small houses, building the tiny house and what is needed. Recommend this book.
