How To Write A Cookbook As An Ebook A Step By Step Guide

Synopsis

Updated version. This book I wrote as a guideline to writing a cookbook as an eBook. After experiencing frustration at trying to write my own book and understanding the formats and what was needed to be accepted by publishers. So after a long journey I finally wrote and published my cooking eBook. The whole process took me over a period of two months, when I worked out all the bugs my next book took me three days. I will show you STEP BY STEP to achieve your goal of writing a cookbook, without the trials and tribulations I went thru. So if you have just started on your book or, you have like me out of frustration needed a guideline to help you, this will be the book for you. Don't waste anymore time!! This is a simple guide, step by step. Users of Microsoft Word.

Customer Reviews

Very good. Perfect step by step walk through of how to format a cookbook. Simple to follow along. I'm happy with this.

Very clear, specific, and well-written. I learned a lot. It was especially helpful that the author offered to send a pdf copy of the book so that I could print it out and use it as a reference. I'm sure this book

will save me a great deal of time.

This book is very useful. If you don't know anything about computers the instructions might look overwhelming about the formatting of your book. But if you aren't afraid of the computer, this book will be the answer to a lot of your questions if you want to find the information in one single book instead of spending millions of hours researching for information online
