# Screw It, Let's Do It

## Synopsis

"Screw it, let's do it!" is one of Richard Branson's favourite sayings. In this audiobook of the same name he reveals the lessons that have helped him through his business and personal life. Lessons like believing it can be done and that if others disagree with you try and try again until you achieve your goal; and that you must love what you do. These and other lessons, with examples of how he learned them and how he's used them, are included in this stirring and candid look at his lessons from an exceptional life, which will inspire you to make a difference in your everyday life.

## Customer Reviews

I read the author's "Losing My Virginity" in 2005, rated it a five star with the title "Entertaining, fun, motivational, inspiring, simply irresistible!" In fact, I described it as the best biography in my Listmania List. Though I did know this one is just a short update to that, I couldn't help but read it, and still found it very fascinating. Upon writing this review, I just found that there is an 256 page Expanded Edition which is double the size of this. I strongly recommend any potential reader to buy either "Losing My Virginity" or the "Expanded Edition" (which explains the four star here). You will thank me for that.p.s. Below please find some of my favorite passages for your reference.A journey of a thousand miles starts with that first step. If you look ahead to the end, and all the weary miles between, with all the dangers you might face, you might never take that first step. And whatever it is you want to achieve in life, if you don't make the effort, you won't reach your goal. So take that first step. There will be many challenges. You might get knocked back - but in the end, you will make it. Good luck!As soon as something stops being fun, I think it's time to move on. Life is too short to be

unhappy. Waking up stressed and miserable is not a good way to live. pg 22If you do still have to work for a boss at a job you dont like, as almost everyone does at some point, dont moan about it. Have a positive outlook on life and just get on with it. Work hard and earn your pay. Enjoy the people you come into contact with through your job. And if you are still unhappy, make it instead your goal to divide your private life from your work life. Have fun in your own time, you will feel happier and you'll enjoy your life and your job more.
