Meet The New Supervisor ... YOU: Tips And Tools For The First Time Supervisor Or Manager

Synopsis

Many times good workers are promoted into their first supervising role but are never given the training needed to succeed in their new position. Just as you needed strong, specific skills when you were a regular worker, you must develop new skills to be a good supervisor. In other words, you have to add new tools to your tool box. That is the purpose of this ebook. You will need to begin working on personal and professional traits to help you accomplish the goals you set as a first time supervisor. These would include leadership, team building, communication, time management, dealing with people, running effective meetings and more. Your new position will be an exciting, challenging, and rewarding opportunity. This book is intended to be the first block in building a foundation for growth in your supervisory career.
